**NEW YORK SHIPPING ASSOCIATION, INC. ANNOUNCES NAME CHANGE
TO THE SHIPPING ASSOCIATION OF NEW YORK AND NEW JERSEY**
*New Name and Refreshed Logo Better Reflect Organization's Continued
Mission on Both Sides of the Hudson River*

The New York Shipping Association announced today that going forward it will be doing business as the Shipping Association of New York and New Jersey.

The New York Shipping Association was created in 1955. This was a time when the overwhelming majority of cargo-handling work in the Port of New York and New Jersey took place in the State of New York. Over the past 67 years, the business of the Port has evolved to where nearly 90% of the cargo-handling port work now takes place in New Jersey.

The more recent goals of the Shipping Association have been to modernize port operations, improve productivity, facilitate growth, and streamline processes for our members. It is also time that we modernize our name to reflect the work of our membership more accurately to the workforce, the industry, local communities, Trenton, Albany, and Washington DC.

Along with the name change, the organization has an updated, refreshed logo.

About The Shipping Association of New York and New Jersey

The Shipping Association of New York and New Jersey (TSANYNJ) is a membership organization that represents the terminal operators, ocean carriers, stevedores and marine-related businesses that operate ships, move the cargo, and train and employ the longshore workers in the Port of New York and New Jersey. TSANYNJ negotiates the collective bargaining agreement on behalf of its members with the International Longshoremen's Association and the Port Police & Guards Union. TSANYNJ coordinates the hiring and training of the labor that moves cargo through the largest port complex on the East Coast with terminals located on both sides of the Hudson River in New York and New Jersey.
